Effective Date: November 20, 2025

Company Address: 30 N Gould St, Sheridan, WY 82801, United States

Website: <https://fcp-consulting.co>

Email: office@fcp-consulting.co

This Cookie Policy explains how Free Clear Port Consulting LLC uses cookies and similar technologies on this website. It applies to all visitors regardless of geographic location, with specific provisions for users in countries that apply the General Data Protection Regulation.

1. What Cookies Are

Cookies are small text files that are stored on your device when you visit a website. They allow the website to recognize your browser, remember preferences and improve performance. Cookies do not give us access to your device and cannot run programs or install software.

2. Types of Cookies We Use

We use only the categories of cookies that are necessary to maintain the stability, functionality and performance of our website.

Strictly Necessary Cookies

Cookies required for essential website functions.

These enable navigation, form submissions, session management and security features.

These cookies cannot be disabled and do not store personal information.

Functional Cookies

Cookies that remember your preferences such as language selection or basic display settings.

They enhance convenience but are not critical for core website operation.

These cookies may store minimal non sensitive identifiers.

Analytics Cookies

Cookies that measure traffic, page usage, scroll depth and performance.

We use analytics only to understand how visitors interact with the website so we can improve user experience.

Data collected is anonymized whenever possible.

We do not use advertising, tracking or marketing cookies.
We do not use cookies to profile visitors or perform behavioral advertising.

3. Legal Basis for Cookie Use (GDPR)

For visitors from the European Union the legal bases for processing cookie related data include consent for analytic and functional cookies and legitimate interest for strictly necessary cookies.

Analytics cookies load only after you give consent through a cookie banner if displayed to EU visitors.

4. What Information Cookies Collect

Depending on the category, cookies may collect the following information.

- Browser type and version
- Device type
- Operating system
- Time of visit
- Pages viewed
- Referring URLs
- Basic interaction patterns
- Session identifiers that do not reveal identity

Cookies do not store engineering files, project data or personally identifying information unless explicitly submitted by you through a form.

5. Third Party Cookies

We may use trusted third party tools to analyze usage data. These may include analytics providers or hosting platforms that rely on minimal cookie usage to measure performance.

These providers do not have permission to use collected data for their own marketing or profiling.

You may review the privacy policies of these providers for complete details on their practices.

6. Cookie Duration

Cookies may be stored for various durations.

Session Cookies

Deleted when you close your browser.

Persistent Cookies

Remain on your device for a predefined period but can be manually deleted at any time.

We use reasonable retention durations that comply with privacy regulations.

7. Managing Cookie Preferences

You can manage or delete cookies at any time using your browser settings.

Most browsers allow you to block cookies, remove existing cookies or receive alerts before cookies are stored.

If you disable certain cookies the website may not function properly or some features may become unavailable.

For EU visitors, if a cookie banner is displayed, you can adjust your preferences directly through the banner.

8. Do Not Track Signals

Because there is no uniform industry standard for handling Do Not Track signals we do not change behavior in response to such browser settings.

9. Cookie Use in Connection With Engineering Services

Cookies do not interact with project data, technical files, CAD models or documentation that clients provide during service execution.

All engineering related data is handled separately according to the Privacy Policy and Data Processing and Confidentiality Policy.

10. Updates to This Cookie Policy

We may update this Policy to reflect changes in technology or legal requirements.

Any updates will take effect once published on this page.

By continuing to use this website you accept the updated version.
